

Testimony of the American Society for Biochemistry and Molecular Biology
to the
House Appropriations Committee
Subcommittee on Labor Health and Human Services, and Education

Submitted by:
Sarina Neote
Director of Public Affairs

While we recognize that Congress has allocated a significant amount of emergency funding to the NIH to combat COVID-19, those supplements do not replace consistent, sustained year-over appropriations for the agency. We cannot be of a one-track mind here. We must continue to combat other serious diseases and public health threats as well.

remain the leader of scientific discovery and innovation is wholly dependent upon a pool of creative, diverse and highly intelligent scientists do not have a one-track mind here. We must continue to combat other serious diseases and public health threats as well.
